How to Make Your Easter Chick

Step 1: Print out a copy of the template (at end of these instructions) on thin white A4 thin card and cut out two pieces: one whole egg shape (which forms the background) and the “hatched part”.

Top tips:

- *You can draw the egg by hand easily if you don't have a printer*

Step 2: Take the “cracked” piece of the egg and colour or paint this with your own wonderful design.

Top tips:

- *You can use your collection of materials such as coloured paper, paint, gems, glitter, buttons, stickers to make your own fantastic and imaginative decorations!*
- *Younger children may enjoy scrunching pieces of tissue paper and gluing these on to the cracked part of the egg.*

Step 3: Glue the cracked piece of egg to the whole egg shape. This should make a pocket to hold your Easter chick.

Top tips:

- If using paint, make sure this has dried before this step!
- For extra security you can also staple the edges.

Step 4: Now make your chick! You can use the template provided (at end of instructions) with yellow card.

Top tips:

- *If you don't have yellow card you can colour or paint it yellow.*
- *If you have feathers you can decorate your chick with these! Scrunched up tissue paper also adds nice texture.*

Step 5: Make a face for your chick! First, add a beak by cutting a diamond shaped mouth folded in half from orange card. Next, glue on googly eyes. Finally colour the feet black.

Top tips:

- *If you don't have googly eyes you can paint or draw eyes or make your own from black and white paper.*

Step 6: Once all your pieces have dried you can slide your chick in and out of the egg and pretend it's hatching!

Top tips:

- *You can make this into an Easter decoration by punching a hole at the top and adding ribbon.*
- *You can also make these into lovely easter cards*
